

1st Epaggelmatiko Lykeio of Drama, Greece

The prefecture of Drama is one of the 13 prefectures of Macedonia. It borders to the North with Bulgaria, to the West with the prefecture of Serres, to the South with the prefecture of Kavala and to the East with the prefecture of Xanthi. The prefecture of Drama has a population of 100.000 people.

The city of Drama is the capital city of over 40.000 inhabitants. Drama is approximately 150 Kilometres far from Thessaloniki, 670 km from Athens and 35 Kilometres from Kavala.

The prefecture of Drama is not very touristically developed, despite its countless spots of natural beauty, the historical monuments and the significant archaeological sites. Nevertheless, the area is an ideal winter vacation destination, also offering opportunities for autumn and summer vacations in the unspoiled nature.

Drama today is a modern city of Macedonia, with respect to the past and with the look turned to the future. In the centre of the city there are the sources of Saint Barbara, round of which has been developed a model space of recreation, with very old-aged trees, waters that run to all the directions. The old multi-floored tobacco storehouses are harmonised with the beautiful traditional houses. Inside and outside of these parks there are enough spaces of recreation like taverns, restaurants and outdoor cafes, which will satisfy your each expectation. It is a very graphic city that deserves to be visited.

Built in place full of plants, where abundant waters rise shaping real lakes and cool streams. It is the city in which the centre dominates, for hundreds of years, the humid element, the vegetation and the calm that offers its natural aged-long parks. The hill of Drama that is named Korylovos, offers panoramic view of all the plain and the homonym forest that "touches upon" Drama.

Drama has an Archaeological, a Folk art and an Ecclesiastical Museum. The Archaeological Museum of Drama, through the big variety and right provision of its exhibits, will travel you behind in time.

Every September the city of Drama organizes the Greek and International Festival of Films of Small Length, unique in Greece, that each year knows bigger success always. At the duration of the Festival the city lives a cultural orgasm as there are realised a lot of parallel events, of varied interest.

The nightly life that the city offers satisfies all the preferences. There are bars and cafes next to the streets and the most romantic cafes and taverns in the most romantic corner of the city, in the park of Saint Barbara.

At a distance of 19 km from Drama, on the provincial road connecting Kavala with Drama, lies the historical city of Philippi, now the most important archaeological site in Eastern Macedonia with the city walls, the acropolis, the theatre, the forum, Basilica A, Basilica B, and the Octagon.

In the village called Kali Vrissi there is the temple of Dionysus, preserved in good condition.

In the natural points of interest of the prefecture is included also the [Maara](http://www.spilaioaggiti.gr/) cave (<http://www.spilaioaggiti.gr/>) in the area of Kokkinogia, which is naturally decorated with a plethora of stalactites with amazing colours, the beautiful dense forest of Elatia, the only red-spruce forest in Greece and the unspoiled forest of Frakto.

The city of Drama is built on the foot of mountain [Falakro](http://www.falakro.gr/).

(<http://www.falakro.gr/>)

The ski centre of Falakro at an elevation of 1700m offers the opportunities for skiing. Falakro mountain is also ideal for hiking, mountaineering, climbing, aerial sports, bird watching and walking, and enjoying the beauty of the scenery.

The most modern women's agrotouristic cooperation in Kokkinogia, Drama

Its members are local women who have decided to show off their culinary art and join the fun and creativity. And so now we can all taste the unique flavors, which only prepared for their families in the past. Women provide local materials and create, using traditional recipes and processes, products of exceptional taste, quality and nutritional value.

Paranesti - Forestis Company (<http://www.forestis.gr/home/>)

The company and its specialized associates are waiting for you at their base at "Cafe Therapeftirio", to offer you, with love and care, activities in nature in Paranesti, Drama. Right on the banks of Nestos River, all the team offers countless actions for your "therapy"!

[Air Club Aiolos in Drama \(http://www.aiolosdrama.org/\)](http://www.aiolosdrama.org/)

According to witnesses, before the Second World War in our area an Armenian in origin built a light wing and tried to take off from the area between Kalifytos and Taxiarches. According to what is being said, quite a large crowd gathered and in his first attempt he got killed.

The first flight from Korylovos was done in 1985 from Tsitsimakas a man from Thessaloniki.

Up until today we can see the pieces of the boards used to build the first ramp in Korylovos inside the bushes.

On the 9th of February 2000 in a general meeting held at the commercial center of Drama, everyone involved with paragliding and hang gliding gathered and an unanimous decision was made to create a new club with the

name "AIOLOS Drama Air club" placed in Drama.

The airclub AIOLOS is essentially a club rather than business. It belongs to the Greek Air Sports Federation which is member of the international air sports federation.

The airclub AIOLOS is located the most beautiful part of the city but housed in a container. The air sports of AIOLOS Drama Air club are:

- ✚ Air modeling
- ✚ Hang gliding
- ✚ Paragliding
- ✚ Para motoring
- ✚ Hang motoring
- ✚ Ultra-light planes

After the successful organization of the 2008 pre-Paragliding world cup event in Drama with the participation of almost 150 pilots from all continents the air club Aiolos of Drama proudly organized the Paragliding World Cup during June 2010.
